Fred and Lisa Magers

Fred and Lisa Magers are responsible for the start of Magers Repair. Fred has been involved in the trades for most of his life. He started out working on lawn mowers with his grandpa at around the age of 8. Fred's experience and knowledge grew as he developed a passion for electrical systems and building relationships with all of his customers. Lisa has always been the best sidekick for the company as she held down the fort and handled the office work. She spent many late evenings side by side with her husband while he worked well into the night keeping local factories and businesses up and running. Now, Fred spends most of his work days handling the commercial repair portion of the business. He enjoys working on specialty equipment like printing presses and packaging equipment. Fred has trained his 2 boys (Ben and Brandon) to run his business the same way he always did. Do it right, and be fair to the customer. Quality work doesn't have to break the bank. Now that they don't have to work the late nights, Fred and Lisa prefer to spend most of their spare time with their 4 grandkids.

## Brandon Magers

Brandon is the oldest son. He is married to Emily and the father of a very intelligent red headed daughter (Bexley) and an extremely energetic firecracker little boy (Barrick). Brandon is a volunteer fire fighter with the Village of Loda and is also very actively involved with Pheasants Forever, serving as the Chapter Vice-President for Ford county.

He spends many of his weekend hours helping his wife with her professional photography business ([Mager Image Photography](#)). In the business, Brandon is the expert electrician and especially enjoys being part of a new creation when houses are built.

## Ben Magers

Ben is the second and youngest son. He is married to his wife Sam and the father of a very sweet daughter (Wynn) and a handsome little boy (Chip). Sam answers the phones at Magers Repair and keeps the boys' schedule in line as well as running her full time flower and balloon business (The Pop Loft). Ben spends his evenings working as a teacher in the HVAC Program at Parkland College. Ben is our expert on all heating and air conditioning calls. He enjoys lending a hand to his former students on HVAC questions as much as he can.

Andy Peeler

Andy is Fred and Lisa's nephew. Although he is Brandon and Ben's cousin, Andy is often referred to as the "other brother" by lots of customers and family.

Andy is married to his wife Josie and they are expecting a little boy in the fall of 2023! Andy grew up working with Brandon and Ben from the time he was little. He is an energetic HVAC installer and always willing to get his hands dirty on the job. Andy always says that he doesn't feel like his job is "work" because he is spending his days with his cousins.
